

Hire the **top 1%** developers at **Zero Cost**.

About Us:

We are all set to build an exceptionally skilled talent pool to build an amazing future, irrespective of their backgrounds!

What makes our students the best you will ever get?

Thousands of students use the Sharpener platform to be a Sharpenerian.

We only select the best students after filtering through an effective evaluation of coding and communication skills.

Unless they are ready, they are not referred!

5000

monthly applications

10%

qualify our initial test

1%

are referred to our HR partners.

Remaining 9% repeat some modules to perfect their skills.

Curriculum:

Our industry standard curriculum teaches students on how to learn so that they can start with new languages and frameworks as well.

Industry focused learning

Data Structures and Algorithms:

- Coding Fundamentals
- Linear Data Structures (Arrays, stacks, queues, linked lists)
- String and Maths
- Heaps and Trees
- Sorting & Searching Algorithms
- Greedy Algorithms
- Dynamic programming and backtracking
- Graphs and their algorithms

Work Practices

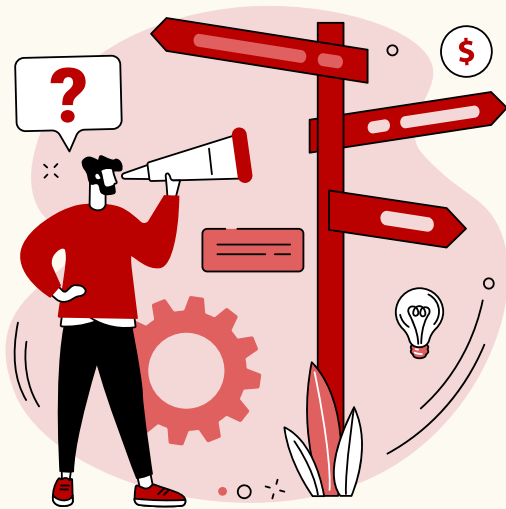

- Sprints and Stand ups
- Git & Github
- AWS and Cloud

How Sharpener fixes student quality?

- No fixed learning timeline.
You are ready only when you are **ACTUALLY** ready!
- 500+Hours of coding
- Industry grade **Live Projects**
- Github Version Control with Personal Repos
- Mentors who are **professional coders** train our students

Different Tech-Stacks Roadmaps

Full Stack Engineer

DSA, Web Fundamentals, HTML & CSS, Javascript, ReactJS, Node.js, MongoDB, SQL, Systems Design
